When you need **emergency care**, we are here to provide excellent and compassionate care.

Health Assessment

Upon your arrival to the emergency room, our qualified team will assess your symptoms and implement an appropriate treatment plan. You will be asked about current medical conditions, previous medical history, current prescriptions and over the counter medications.

Some conditions may require further testing in which you may be admitted as a patient or recommended for a referral based on the severity of your illness or injury.

Admission

If you are admitted to the hospital, you will be assigned to a room and the admission process will be completed. Upon your request, family members will be notified of your medical condition.

What if I need medical care, but it is not an emergency?

Contact one of our medical clinics:

Lake City - 712-464-7907 or 800-560-7500

Dayton - 515-547-2974

Gowrie - 515-352-3891

Lake View - 712-665-8555

Rockwell City - 712-297-8989

Stewart Memorial Community Hospital is dedicated to meet our communities ever changing healthcare needs. For you and your family, it all adds up to the *Right Care, Right Here.*

How do I know when a situation is a medical emergency?

A medical emergency is defined by someone experiencing severe symptoms that may cause loss of life, serious illness, or physical damage to your body.

What should I do in a medical emergency?

Dial 911. An ambulance will transport you to the emergency room.

What should I take to the emergency room?

Bring a list of your current medications and any other medical information to help us care for you. Also, bring your current insurance card.
